Re: Formal Approval of Large Mine Permit Transfer & Amount and Form of Replacement Reclamation Surety, Staker Paving & Construction Co., Inc., Keigley Quarry, M/049/001, Utah County, Utah

Dear Mr. Forrest:

On October 29, 1999, you hand delivered the final signed and executed documents from Staker Paving & Construction Company, Inc. (Staker) that were required to approve of the Keigley Quarry permit transfer from Geneva Steel Company (Geneva) to Staker. On November 3, 1999, we received Geneva's revised and executed *Sworn Statement of Transferor*. Receipt of this document now completes the required paperwork to allow the Division Director to formally approve of the Large Mining Operations Permit Transfer (Form MR-TRL) for the Keigley Quarry. Staker has provided the necessary documents and replacement reclamation surety to allow the existing permit to be transferred from Geneva. The Division hereby grants its final approval of the Keigley Quarry permit transfer from Geneva to Staker.

We have enclosed copies of the following executed documents for your records: the permit transfer form, the Reclamation Contract agreement, and the new \$615,500 surety bond (issued by Liberty Mutual Insurance Company. All continued mining and reclamation obligations for this mine site are now the responsibility of Staker. Geneva's reclamation obligations for the Keigley Quarry under the Utah Mined Land Reclamation Act are hereby terminated.

As discussed between you and Wayne Hedberg during the review of the latest Disturbed Area Map (Utah County base map), should future field verification indicate inaccuracies, then an updated map of the site will be required. Thank you for your help and patience in finalizing this permitting action. Please call me or Wayne Hedberg if you have any questions in this regard.

Sincerely,

Mary Ann Wright
Associate Director, Mining
